a town for a lifetime
IRONDEQUOIT *New York*

November 19, 2020

Dear Residents,

It is my pleasure to present to you the Adopted 2021 budget for the Town of Irondequoit. The onset of the COVID-19 virus and its devastating impact on the world economy has impacted every facet of our lives. Local governments across America are being confronted with considerable reductions in revenue, which is placing into jeopardy their ability to fund essential services for the community.

In Irondequoit, we have never broken the state-mandated property tax cap and we again will stay well under it in 2021, despite the challenges that COVID-19 has brought. Across New York State, that is not the norm, as local governments are piercing the cap to ensure maintenance of spending.

This \$36.9 Million budget sets a tax rate of \$6.42 per \$100,000 of assessed value and property owners will see a reduction in their sewer and stormwater district charges. Our largest challenge in developing this budget was a projected reduction of approximately \$500,000 in anticipated sales tax revenue and a 3.2% reduction in all forms of revenue. Spending will increase at a modest rate of 2%. This reflects a 5-percent increase in health care costs, increased retirement costs and other negotiated contractual benefits for our town's workforce. There is no proposed salary increase for the Supervisor or Town Councilmembers. Just as families across Irondequoit are doing during this economic hardship, it is imperative for Town government to tighten its belt. Throughout the development of this budget, I asked our department heads to scrutinize every line item of their budget, and in many cases, justify both maintenance of effort and whether efficiencies could be realized to eliminate line items.

This budget not only maintains our current levels of service for our residents, it contains strategic investments that will provide an even greater return on residents' hard-earned tax dollars. Over the past several years, we have paid more attention to our aging infrastructure, spending more on paving than we have in two decades. Despite our economic challenges, we will increase the money spent on our roadways in 2021. We will also significantly increase the offerings of our recreation department by opening the new community center in the second half of 2021.

Irondequoit's financial health remains strong, as was verified by the State Comptroller's recent report that the Town's fiscal stress is at its lowest level ever. This budget will help us weather this economic storm and lay a solid foundation for stable fiscal management for years to come.

Sincerely,

DAVID A. SEELEY
Supervisor

CC: Town Councilmembers
Diana Marsh, Comptroller

The following pie charts portray the Town budget in two ways. There are six charts, two sets of three each.

The first set (of three charts) is based on data for the entire budget including all funds. They include the total of appropriations and revenues (including special assessments, fund balances, and the property tax levy) as indicated on the "Operating Budget Summary and Property Tax Computation" page.

The second set (of three charts) provides information for the operations that are supported by the real property tax. Accordingly, they do not include the Consolidated Sewer District, Rock Beach Road Sewer District, Orland Road Sewer District, LaSalle Landing Sewer District, Stormwater Drainage District, Sea Breeze Water District, or the 28 street lighting districts because these operations are not subsidized by the real property tax.

The charts showing the "Administration Expenses" category include the Town Board, Supervisor, Comptroller, Human Resources, Attorney, Assessor, Information Services, and Town Clerk operations as well as the unallocated general expenses.

On the charts showing revenues the "other" category includes interfund charges, inter-operation charges, and miscellaneous income.

Bureau: Street Lighting

Fund(s): General and Special Districts

The Town provides street lighting to facilitate traffic flow and help reduce nighttime traffic accidents, aid in crime prevention and police protection, and promote community pride and neighborhood spirit. The Town leases the street lights and appurtenances from the Rochester Gas & Electric Corp. (RG&E) and pays RG&E the electricity and maintenance costs. RG&E owns, operates, and maintains the equipment. The lighting expenses are paid partly through the general fund, which is financed by the general real property tax levy, and partly through twenty - eight (28) special lighting districts, which serve residents in particular neighborhoods and are financed through special assessments on the particular properties. The town-wide district benefits the public as a whole and includes lighting of arterial streets and highways and area lighting at various public places and Town facilities.

Bureau: Public Works

Funds: General, Highway(s)

The Bureau of Public Works is responsible for maintaining Irondequoit's public infrastructure. The facilities include a network of arterial and residential streets and sidewalks and a sewer system. The Bureau is responsible for the planning and execution of capital improvements to preserve and enhance these facilities with the ultimate objective of preserving property values and creating a safe and high quality environment for the residents of the town.

Operation: Public Works Administration

Fund: General

Account: 001-1490

This office provides oversight of the Public Works operations and capital improvements (largely street and sewer improvements). It administers the annual budget with cost and purchasing controls, administers service and construction contracts, and is the liaison with other municipalities as well as the state and county governments for matters pertaining to public infrastructure planning and improvements. A major function is communication with residents of the town with regard to public work services and programs.

Operation: Central Communications	Fund: General	Account: 001-1650
This budget includes the costs of operating the communication radio system used by several Town departments and bureaus including Public Works, Parks, Supervisor, Assessor, and Neighborhood and Business Development. Equipment includes local government base stations, repeater stations, scanners, antennas, and mobile, desk, and portable radios. Repair and maintenance of the equipment is done by qualified radio and electrical technicians at local repair shops.

Operation: Sidewalk Plowing Fund: General Account: 001-5410
This budget includes the costs of plowing snow from sidewalks. Current policy is to plow the walks on the north and east sides of streets in even numbered years and south and west sides in odd numbered years. Certain main and school routes are plowed on both sides each year. In this manner each street has a walk cleared on at least one side each winter but the total mileage plowed is reduced by about 45% and costs are minimized. In addition to the cost of labor of the plow drivers, this budget includes the costs of maintenance and repair of the plows and repair of lawn damage in the spring of each year. There are 294 miles of sidewalk in the Town.

The Principal and Interest on Debt results from a capital lease for the replacement of equipment.

Operation: Sidewalk Maintenance & Replacement Fund: General Account: 001-5411
This program is responsible for the maintenance of sidewalks and replacement of substandard walks. Sidewalks are routinely raised and broken by trees in the rights-of-ways and selective cutting of tree roots has reduced potential problems. The Town has a program of replacing hazardous sidewalks annually and this budget includes the cost of debt service to repay the borrowings that have financed those projects.

Operation: Highway Maintenance Fund: Highway, Item 1 Account: 021-5110
 Irondequoit has 164 centerline miles (328 lane miles) of Town roads. This budget includes the costs of road repair and maintenance as well as the debt service on highway capital improvements. Repair and maintenance programs consist of "Truing & Leveling", a process of overlaying rough road surfaces with a thin coat of asphalt; "Chip Sealing", the application of liquid asphalt and fine grade stone to provide a protective coating to a road; and "Milling & Repaving", the removal of the top surface of pavement and subsequent repaving of a road. Other operations include building and repair of gutters and curbs with hot asphalt, repair of driveways to meet the level of new street overlays.

Operation: Public Works Equipment Maintenance Fund: Highway Item 3 Account: 023-5130
This budget includes the costs of maintaining and repairing all public works highway equipment. Activities include preventative maintenance, repair, and overhaul. Beginning in 1999 this function assumed the responsibility for vehicles used by the police and other departments. The cost of service on non-highway equipment is charged back to the other departments and other parts of Public Works. This budget also includes the cost of debt service on financing of equipment which has been bought through debt issuance.

Operation: Highway Winter and Right-Of-Way Maintenance

Fund: Highway Item 4

Account: 024-5140, 5142

This budget includes the costs of right-of-way maintenance (cutting of grass and brush) and winter maintenance (removal of snow and ice). The Town provides winter maintenance on Monroe County roads within the Irondequoit borders and on selected NY State roads and it is reimbursed by the County and State for those efforts.

Bureau: Stormwater Drainage District

Fund: Storm Sewer

Account: 038 - 8140

This special assessment district was implemented with the 2004 budget. The district is financed by a charge per parcel of real property. The US Environmental Protection Agency requires that local governments regulate and manage stormwater runoff to adjacent waterways. This district is responsible for maintenance and improvements related to storm water drainage and runoff in Irondequoit. Since District charges are paid by the special assessment, the District costs are excluded from the town property tax levy. There are 155 miles of storm water sewer.

Bureau: Consolidated Sewer District	Fund: Consolidated Sewer	Account: 031-8110, 8120, 8121, 8125
This budget includes the costs of operation and debt service for the town wide Sanitary Sewer District. The District is financed by a special assessment sewer use charge. Debt financing is aided by the New York State Environmental Facilities Corporation which provides interest rates of approximately 50% of market rates. Since District charges are paid by the special assessment, the District costs are excluded from the town property tax levy.		

Operation: Sewer District Administration	Account: 031-8110
This budget includes costs that are not directly related to the maintenance, service, or pump operations. These costs include personnel scheduling, dispatching, equipment management, purchasing, accounting, tax billing, and customer assistance.

<p>Operation: Sewer Maintenance</p> <p>This budget includes the cost of maintenance and repair of 171 miles of sanitary sewer. Sewage is conveyed through this system to the Monroe County Pure Waters Van Lare Treatment Plant. In addition to responding to sewer breaks and stoppages, the sewer maintenance program carries out an aggressive preventive maintenance program by cleaning trouble spots with high pressure flushing equipment, inspecting sewers with televising equipment, and relining sewers to prevent failures or collapse.</p>	<p>Account 031-8120</p>

Operation: Sewer Service

Account: 031-8121

This program provides an on-call response to residents who experience sewer back ups, unusual odors, or other sewer related problems. It is limited to residential property. It includes cleaning lateral sewers from residences to the street mains. Irondequoit is one of very few towns that provide this level of service at no charge to the users. When they are not on service or emergency calls the employees are assigned to stake outs, inspections, or other work.

Operation: Pump Station Operation and Maintenance

Account: 031-8125

The topography of the Town requires several wastewater pumping facilities to lift sewage from low lying areas up to levels at which it can be conveyed through main sewers and onto the Monroe County sewage treatment plant. The failure of any of these pumping facilities would result in serious health and environmental consequences. This budget includes the costs of maintaining the twenty six (26) pumping stations.

This department combines the responsibilities of the former Development Services and Planning and Zoning departments. It is responsible for ensuring compliance with state and local ordinances regarding fire prevention, building construction, property maintenance, land use planning, and zoning. It also administers the Home Improvement Program which is funded by the federal Community Development Block Grant and provides funding to qualified residents for home improvements and removal of code violations. Beginning in 2018, Animal Control is included in Neighborhood & Business Development Department and has been removed from the Police Department.

Bureau: Fire Marshall
This office is responsible for administration and enforcement of all laws, codes, ordinances, regulations, and orders applicable to life safety, fire prevention, and fire safety in residential and commercial properties, educational facilities, areas of public assembly, and multiple residences.

Department: Police

Fund: General

Account 001 - 3120

The Irondequoit Police Department is the second largest town police force in Monroe County. The officers of the Department protect the citizens and property owners of the town, preserve the rights of citizens, and reduce fear in the community through the prevention of crime and maintenance of order in public places. The Department provides these services through the Road Patrol, the Community Services Unit / Youth Services Bureau, the Criminal Investigation Unit, Special Criminal Investigations unit, all with the support of civilian personnel. The officers of the Department provide traffic enforcement, drug interdiction, and the DARE program instruction along with a myriad of other traditional police law enforcement activities. The Department is accredited by the New York State Department of Criminal Justice Services, Bureau for Municipal Police. Beginning in 2018, Animal Control is included in Neighborhood & Business Development Department and has been removed from the Police Department.

Department: Library

Fund: Library

Account: 005 - 7410

The mission of the Irondequoit Public Library is to provide services and programs that meet individual and community needs for educational, cultural, recreational, and technological exploration and to promote collaborations among residents and groups to foster an engaged and literate community. The library is a member of the Monroe County Library System (MCLS) and is one of the busiest libraries in Monroe County.

Unallocated Revenue

Fund: General

While many revenues result from department operations and are properly associated with department expenses, several major revenues cannot be allocated to departments and are properly listed as unallocated or general revenues which underwrite the cost of the entire town government, except for special assessment districts, without regard to particular departments.

Bureau: Town Supervisor

Fund: General

Account No. 001 - 1220

The Town Supervisor is a member of the Town Board and is elected at-large to represent all residents of the town. The Supervisor is the presiding officer at all meetings of the Town Board and serves as the liaison between the town government and community organizations, boards, commissions, citizen groups and other government agencies. In addition, the Supervisor is the chief administrative and fiscal officer of the Town and, as such, is responsible for implementing policies established by the Town Board for operational and fiscal matters of the town government.

Operation: Audit Services

This account contains the budget for contract services of a Certified Public Accountant. Because Irondequoit receives over \$500,000 annually in federal aid it is subject to federal Single Audit rules and its year end financial statements must be audited by a CPA. In addition to the annual audit of the general purpose financial statements this budget contains provision for special audits as determined by the Town Supervisor.

Bureau: Town Clerk Fund: General Accounts: 001 - 1410, 1330, 1450, 1460
The Town Clerk is the Licensing Officer for the sale of various licenses and permits, e.g. dog, marriage, conservation, Games of Chance, Bingo; Sub-Registrar of Vital Statistics for producing burial permits, cemetery sales; Records Management Officer for the retention and disposition of all Town documents including the proceedings of the Town Board. As the Records Access Information Officer, the Clerk coordinates Freedom of Information requests with the appropriate departments to obtain information promptly. The Clerk is also responsible for bid openings, legal notices, administration of oaths of office and passports and photos.

SPECIAL ASSESSMENT DISTRICTS

Sea Breeze Water District

Fire Districts

Sea Breeze & Vicinity Water District

Fund: 051 (Special District)

The Sea Breeze & Vicinity Water District provides water to property owners in the northeast area of the Town. The District buys treated water from the Monroe County Water Authority and sells water through a distribution system that it operates and maintains. The District has its own elected governing Board of Commissioners which is separate from the Town Board. The District raises revenues through retail water rates.

Fire Districts**Special Assessment Districts**

Irondequoit is served by five (5) Fire Districts, each of which is organized as a special district. The tax levies are imposed in each of the separate areas served by the districts and are not part of the Town general tax levy. The levies are included with the Town budget because the Town serves as the Receiver of Taxes for the special districts.

Recent legislation permits fire districts to submit budgets to towns after Sept. 30. Levy requests may be submitted in the adopted budget.

ANALYSIS of DEBT SERVICE and CAPITAL LEASES

The Town has borrowed through serial bonds, bond anticipation notes and capital leases to finance public improvements and equipment. Payments of principal and interest on these borrowings are included in the annual operating budget. Appended to the annual operating budget is a six year (current year and five future years) of bond, note, and capital lease payments.
